INDEPENDENT AUDITOR'S REPORT ON THE
INDIVIDUAL AND CONSOLIDATED FINANCIAL STATEMENTS

To the Shareholders, Board of Directors and Management of
Oceanpact Serviços Marítimos S.A.
Rio de Janeiro - RJ

Opinion

We have audited the accompanying individual and consolidated financial statements of Oceanpact Serviços Marítimos S.A. ("Company"), identified as "Parent" and "Consolidated", respectively, which comprise the balance sheet as at December 31, 2025 and the related statements of income, of comprehensive income, of changes in equity and of cash flows for the year then ended, as well as notes to the financial statements, including the material accounting policies.

Opinion on the individual financial statements

In our opinion, the individual financial statements referred to above present fairly, in all material respects, the financial position of OceanPact Serviços Marítimos S.A. as at December 31, 2025, and its financial performance and its cash flows for the year then ended, in accordance with practices adopted in Brazil.

Opinion on the consolidated financial statements

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of OceanPact Serviços Marítimos S.A. as at December 31, 2025, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with practices adopted in Brazil and with the international accounting standards (IFRS Accounting Standards, issued by the International Accounting Standards Board - IASB.

Basis for opinion

We conducted our audit in accordance with Brazilian and International Standards on Auditing. Our responsibilities under those standards are further described in the "Auditor's responsibilities for the audit of the individual and consolidated financial statements" section of our report. We are independent of the Company and its subsidiaries in accordance with the relevant ethical requirements in the Code of Ethics for Professional Accountants and the professional standards issued by the Brazilian Federal Accounting Council (CFC), applicable to audits of financial statements of public interest entities in Brazil. We have also fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited (DTTL), its global network of member firms, and their related entities (collectively, the "Deloitte organization"). DTTL (also referred to as "Deloitte Global") and each of its member firms and related entities are legally separate and independent entities, which cannot obligate or bind each other in respect of third parties. DTTL and each DTTL member firm and related entity is liable only for its own acts and omissions, and not those of each other. DTTL does not provide services to clients. Please see www.deloitte.com/about to learn more.

Deloitte provides leading professional services to nearly 90% of the Fortune Global 500® and thousands of private companies. Our people deliver measurable and lasting results that help reinforce public trust in capital markets and enable clients to transform and thrive. Building on its 180-year history, Deloitte spans more than 150 countries and territories. Learn how Deloitte's approximately 470,000 people worldwide make an impact that matters at www.deloitte.com.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the individual and consolidated financial statements as a whole, and in forming our opinion thereon, and, therefore, we do not provide a separate opinion on these matters.

Recognition of revenue from services, chartering and lease ("revenue from services")

As mentioned in note 25 to the individual and consolidated financial statements, the Company and its subsidiaries account for revenues from services pursuant to technical pronouncement CPC 47 - Revenue from Contracts with Customers (equivalent to IFRS 15), considering the following stages: (i) identification of the contract; (ii) identification of the performance obligations; (iii) determination of the transaction price; (iv) allocation of the transaction price; and (v) recognition of revenue. Accordingly, revenues from services are recognized when (or to the extent that) the performance obligations are satisfied based on the percentage of completion of the contract. The process also includes the measurement of revenue to be invoiced, which is calculated based on estimates up to the balance sheet date, using specific assumptions defined by the Company.

Due to the relevance of revenue from services and the degree of judgment applied by Management to measure revenue to be invoiced in the context of individual and consolidated financial statements, we considered this a key audit matter.

How the matter was addressed in our audit

Our audit procedures on the recognition of service revenues included, among others: (i) understanding and assessing the design and implementation of relevant internal controls related to the service revenue recognition process; (ii) performing tests, on a sample basis, in which we concluded on the occurrence, accuracy, and competence through inspecting contracts, invoices, and measurement documents for the provision of services issued by the Company and approved by customers; (iii) inspecting, on a sample basis, the financial settlement of the respective receivables related to these revenues recognized in the current period; (iv) performing substantive analytical tests to assess the correlation of variables on the occurrence, completeness, and accuracy of revenue from services; (v) assessing the assumptions used in the calculation of unbilled revenue, ensuring they were appropriately applied and are consistent; and (vi) assessing the disclosures made by Management in the individual and consolidated financial statements in accordance with accounting pronouncement CPC 47/IFRS 15.

Based on the audit procedures designed and implemented, we consider that the amounts recorded relating to revenues from services, chartering and leasing, as well as the respective disclosures made, are appropriate in the context of the individual and consolidated financial statements for the year ended December 31, 2025, taken as a whole.

Other matters

Statements of value added

The individual and consolidated statements of added value (DVA) for the year ended December 31, 2025, prepared under the responsibility of the Company's Executive Board and presented as supplementary information for the purposes of IFRS Accounting Standards, were submitted to audit procedures carried out in conjunction with the audit of the Company's financial statements. In order to form our opinion, we evaluate whether these statements are reconciled with the financial statements and accounting records, as applicable, and whether their form and content are in accordance with the criteria defined in the Brazilian standard NBC TG 09 - Statement of Added Value. In our opinion, these statements of added value have been adequately prepared, in all material respects, in accordance with the criteria set out in this standard and are consistent with the individual and consolidated financial statements taken as a whole.

Other information accompanying the individual and consolidated financial statements and the independent auditor's report

The Executive Board is responsible for the other information. Such other information comprises the Management Report.

Our opinion on the individual and consolidated financial statements does not cover the Management Report, and we do not express any form of audit conclusion thereon.

In connection with our audit of the individual and consolidated financial statements, our responsibility is to read the Management Report and, in doing so, consider whether this report is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement in the Management Report, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Executive Board and those charged with governance for the individual and consolidated financial statements

The Executive Board is responsible for the preparation and fair presentation of the individual and consolidated financial statements in accordance with accounting practices adopted in Brazil and IFRS Accounting Standards, as issued by the IASB, and for such internal control as the Executive Board determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the individual and consolidated financial statements, the Executive Board is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Executive Board either intends to liquidate the Company and its subsidiaries or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's and its subsidiaries' financial reporting process.

Auditor's responsibilities for the audit of the individual and consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the individual and consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Brazilian and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Brazilian and International Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the individual and consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's and its subsidiaries' internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Executive Board.

© 2026. For information, contact Deloitte Global.

Deloitte.

- Conclude on the appropriateness of the Executive Board's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the individual and consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the individual and consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that may have been identified during our audit.

We also provided those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and we communicate all relationships or matters that may reasonably be thought to bear on our independence, including, when applicable, the actions taken to eliminate threats or the safeguards applied.

Out of the matters communicated with those charged with governance, we determine those of most significance in the audit of the financial statements for the current year and which are, therefore, the key audit matters. We describe these matters in our auditor's report, unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such disclosure. The accompanying individual and consolidated financial statements have been translated into English for the convenience of readers outside Brazil.

Convenience translation The accompanying individual and consolidated financial statements have been translated into English for the convenience of readers outside Brazil.

The accompanying notes are an integral part of these financial statements.

1. GENERAL INFORMATION

OceanPact Serviços Marítimos S.A. ("Company", together with its subsidiaries referred to as "OceanPact") is a publicly-held company incorporated on September 21, 2007, with its registered office in the city of Rio de Janeiro, State of Rio de Janeiro, and listed on the São Paulo Stock Exchange – B3 S.A., under ticker OPCT3.

OceanPact is one of the main providers of marine environment services in Brazil, offering services for the study, protection, monitoring and sustainable use of the sea, the coast and marine resources, mainly in the oil and gas sector, and in several other industry sectors, such as port, shipping, mining, energy and telecommunications. With large inventories of marine spill prevention and control equipment and oceanographic data collection, OceanPact currently has a fleet of 28 vessels and 11 work-class ROVs (Remotely Operated Vehicles), capable of meeting the most diverse demands of its customers. OceanPact's operations are divided into two segments: (i) Vessels and (ii) Services, which comprise three areas of operation:

(i) Environmental, which includes environmental protection services, oceanographic surveys, environmental licensing and studies, operational safety and environmental remediation;

(ii) Subsea, which includes geophysics, geotechnics, inspection, repair and maintenance services, support for construction and decommissioning; and

(iii) Logistics and Engineering, which includes maritime logistics services, offshore support bases, port and coastal engineering.

The Company and some of its investees are subject to regulation of the National Waterway Transportation Agency (ANTAQ) and comply with applicable operational requirements.

2. BASIS OF PREPARATION AND PRESENTATION OF THE FINANCIAL STATEMENTS

2.1. Statement of compliance

The Company's individual and consolidated financial statements ("financial statements") have been prepared and are presented in accordance with the International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB), implemented in Brazil through the Brazilian Accounting Pronouncements Committee ("CPC"), approved by the Securities and Exchange Commission of Brazil ("CVM") and the Federal Accounting Council ("CFC"). All relevant information related to the financial statements, and only this information, is being disclosed and corresponds to the information used by Management in managing the Company. The individual and consolidated financial statements were approved and authorized for issue by the Board of Directors on March 4, 2026.

2.2. Statements of value added

The presentation of the individual and consolidated statements of value added is required by the Brazilian corporate law and the accounting practices adopted in Brazil applicable to publicly-held companies. The statement of value added has been prepared as defined in Technical Pronouncement CPC 09 - "Statement of Value Added". The IFRS do not require the presentation of this statement. Accordingly, under IFRS, this statement is presented as supplementary information, and not as part of the set of financial statements.

2.3. Basis of preparation

The individual and consolidated financial statements have been prepared on the historical cost basis, except for certain financial instruments that are measured at fair value and fair values allocated in business combinations. Historical cost is generally based on the fair value of the consideration paid in exchange for goods or services.

The significant accounting policies applied in the preparation of these individual and consolidated financial statements have been consistently applied in all reporting years.

2.4. New and revised standards and interpretations

The revised standards presented below are effective for annual periods beginning on or after January 1, 2025 and, therefore, are being adopted in the individual and consolidated financial statements for the year ended December 31, 2025. The adoption of these revised standards had no material impact on the disclosures or amounts disclosed in these individual and consolidated financial statements.

Standard or interpretation	Description
Amendments to IAS 21 - The Effects of Changes in Foreign Exchange Rates titled Lack of Exchangeability	The amendments specify how to assess whether a currency is exchangeable, and how to determine the exchange rate when it is not.
OCPC 10 - Carbon Credits (tCO2e), Emission Allowances, and Decarbonization Credits (CBIO)	This technical guidance is intended to provide guidance on the accounting treatment of carbon credits (tCO2e), emission allowances, and decarbonization credits (CBIO) for entities operating in the Brazilian market.

Amendments to accounting pronouncements effective beginning on or after 01/01/2026:

On the authorization date of these financial statements, the Company did not apply the new and revised standards and interpretations that were issued but for which the adoption is not yet mandatory, as follows.

Standard or interpretation	Description
IFRS 18	IFRS 18 will replace IAS 1/ CPC 26: Presentation of Financial Statements.
IFRS 19	IFRS 19 permits an eligible subsidiary to provide reduced disclosures when applying IFRS Accounting Standards in its financial statements.
Amendments to IFRS 9 and IFRS 7	Amendments to the Classification and Measurement of Financial Instruments
Annual Improvements to IFRS Accounting Standards – Volume 11	Amendments to IFRS 1 First-time Adoption of International Financial Reporting Standards and IFRS 7 Financial Instruments: Disclosures, IFRS 9 Financial Instruments, IFRS 10 Consolidated Financial Statements, and IAS 7 Statement of Cash Flows

The adoption of the standards listed above is not expected to have a material impact on the Company's individual and consolidated financial statements in future periods, except for the new standard issued by the IASB published on April 9, 2024, IFRS 18 – Presentation and Disclosures in Financial Statements, which will replace CPC 26 (R1)/IAS 1. The standard will be mandatory for annual reporting periods beginning in January 2027, and in 2025 the Company started studies for adaptation to the standard and analyses of the impacts for the next reporting periods. The Company does not expect IFRS 19 to be applied for the purposes of the group's consolidated financial statements.

2.5. Consolidation principles

The Company's financial statements reflect the assets, liabilities and transactions of the Parent and its direct and indirect subsidiaries ("subsidiaries"). The intragroup balances and transactions, which include unrealized profits, are eliminated.

	12/31/2025			12/31/2024

12. Agriex (a)	direct control	100%	-	direct control	100%	-
13. OceanPact Tech (c)	direct control	88.5%	-	-	-	-

(a) Jointly referred to as UP Group.

(b) Acquired in January 2025, with a 5% non-controlling interest held by the chief executive officer and founder. Aiuká is engaged in rescuing and rehabilitating wildlife affected by oil spills and other emergencies.

(c) A new subsidiary was established and began operations in January 2025, with an 11.5% non-controlling interest in the capital allocated to its chief executive officer. OceanPact Tech is engaged in providing engineering and remote operation services.

On January 2, 2026, the Company completed a corporate reorganization, merging the subsidiaries EnvironPact Consultoria and EnvironPact Sustentabilidade into SLI, which succeeded them in all their assets, liabilities, rights, and obligations, in accordance with applicable corporate law.

2.6. Functional and presentation currency

The functional currency of the Parent and its subsidiaries in Brazil is the Brazilian real (R$), which is the currency of the primary economic environment in which it operates. The currencies of direct subsidiaries that operate in an international economic environment are presented in the table below.

The statements of profit or loss and cash flows of investees with a functional currency different from that of the Parent are translated into Brazilian reais at the monthly average exchange rate, assets and liabilities are translated at the final rate and other equity items are translated at the historical rate. Exchange rate changes on investments in subsidiaries and associates with functional currency different from that of the Parent are recorded in equity, as required by technical pronouncement CPC 02 (R2) – The Effects of Changes in Foreign Exchange Rates and Translation of Financial Statements, equivalent to international standard IAS 21.

Functional currencies of the Company's investees

Company	Functional currency
OceanPact Netherlands	US dollar
OceanPact International	US dollar
Cod Hole	US dollar
OceanPact Technology Norway (“OPTN”)	Norwegian Krone
OceanPact Maritime Ltd. (“OML”)	US dollar
OceanPact Mexico	Mexican peso

3. MATERIAL ACCOUNTING POLICIES

For a better understanding of the basis of recognition and measurement applied in the preparation of the financial statements, the material accounting policies are presented in the respective explanatory notes addressing their applications.

4. CASH AND CASH EQUIVALENTS

	Consolidated		Parent	
	12/31/2025	12/31/2024	12/31/2025	12/31/2024
Cash and banks	2,711	849	133	770
Cash and banks (foreign currency)	28,955	17,575	29	1
Financial investments (*)	664,897	496,679	584,694	428,978
Total	**696,563**	**515,103**	**584,856**	**429,749**

(*) Short-term investments with immediate liquidity comprising floating rate Bank Deposit Certificates - CDB, with average yield in the year ended December 31, 2025 of 100% of the CDI in parent and consolidated (100% of the CDI in parent and 101% in consolidated for the year ended December 31, 2024).

Accounting policy

These include cash, bank deposits and short-term investments with high liquidity and maturing within three months from the original contracting date, readily convertible into a known amount of cash and with insignificant risk of changes in value.

5. MARKETABLE SECURITIES

	Consolidated		Parent	
	12/31/2025	12/31/2024	12/31/2025	12/31/2024
BNDES collateral – Banco Itaú (a)	10,177	11,502	-	-
Collateral - Banco CEF	-	2,800	-	2,800
R&D&I projects – Banco Itaú (b)	13,552	14,324	11,882	13,023
Total	**23,729**	**28,626**	**11,882**	**15,823**
Current	16,096	18,609	11,882	14,443
Noncurrent	7,633	10,017	-	1,390

The Company's financial investments classified as marketable securities have the same guarantee and return ratio of the Company's financial investments:

(a) The guarantee entered into with BNDES represents the requirement to maintain an amount corresponding to at least four months of the debt of subsidiary OceanPact Navegação, including principal and interest, in a centralizing account.

(b) The amounts refer to partnership agreements with customers Karoon, Qatar and Petrobras for Research, Development and Innovation (R&D&I) projects.

For information on the financings mentioned here, see note 18.1.

6. TRADE RECEIVABLES

	Consolidated		Parent	
	12/31/2025	12/31/2024	12/31/2025	12/31/2024
Current trade receivables	416,448	349,029	310,995	267,685
Past due trade receivables	23,916	14,916	22,174	13,786
Related parties (note 23)	-	-	5,897	3,985
Allowance for expected credit losses	(19,161)	(9,253)	(19,156)	(8,322)
Total	**421,203**	**354,692**	**319,910**	**277,134**

The aging list of trade receivables as at December 31, 2025 is as follows:

	Consolidated		Parent	
	12/31/2025	12/31/2024	12/31/2025	12/31/2024
Up to 90 days past due	16,119	4,188	14,403	4,122
91 to 360 days past due	105	2,024	91	1,781
Over 360 days past due	7,691	8,704	7,680	7,883
Total past due	**23,916**	**14,916**	**22,174**	**13,786**

Movement in the loss allowance for the years ended December 31, 2025 and 2024:

	Consolidated	Parent
Balance as at 12/31/2023	**8,624**	**7,410**
Allowances	1,224	1,224
Reversals through write-off	(668)	(631)
Balance as at 12/31/2024	**9,253**	**8,322**
Allowances	12,887	12,871
Reversals through write-off	(2,979)	(2,037)
Balance as at 12/31/2025	**19,161**	**19,156**

In December 2025, the Company recognized an allowance for expected credit losses of R$ 12.5 million, due to the petition for a protective order filed by a certain customer against its creditors, which increased the risk of non-realization of the credit. This balance is less than ninety days past due.

Accounting policy

Trade receivables are recorded at the amount of the services provided, including the respective direct taxes under the responsibility of the Company and its subsidiaries, less withheld taxes, which are considered tax credits (when applicable).

Significant accounting estimates and assumptions

Calculation of the allowance for losses – When calculating expected credit losses, the Company and its subsidiaries use reasonable and supportable forward looking information, based on assumptions about the evolution of different economic factors and how these factors can interact with each other.

The allowance for losses is an estimate resulting from payment defaults. It corresponds to the difference between the contractual cash flows due and those the creditor would expect to receive, taking into account collateral cash flows and any credit enhancements.

Significant increase in credit risk impacts the expected credit loss. In assessing whether the credit risk of an asset has significantly increased, the Company and its subsidiaries take into account qualitative and quantitative reasonable and supportable forward looking information.

7. RECOVERABLE TAXES

	Consolidated		Parent	
	12/31/2025	12/31/2024	12/31/2025	12/31/2024
Corporate Income Tax (IRPJ) and Social Contribution on Net Income (CSLL) (a)	61,327	69,121	39,812	45,302
Taxes on Revenue (Social Integration Program Contribution (PIS) and Contribution for the Financing of Social Security (COFINS))	3,456	4,289	1,419	1,898
Taxes withheld by customers (b)	4,831	5,002	3,634	3,689
Other recoverable taxes	751	1,327	162	179
Total	**70,365**	**79,739**	**45,027**	**51,068**

(a) The balances of IRPJ and CSLL as at December 31, 2025 and 2024 refer mainly to negative balances of taxes, comprised of customers' withheld taxes, which should be recovered in the following months.

(b) Taxes withheld by third parties comprise mainly ISS and INSS withheld by third parties when engaged to provide services.

8. CONTRACTUAL RETENTIONS

	Consolidated		Parent	
	12/31/2025	12/31/2024	12/31/2025	12/31/2024
Contractual retentions - Current	41,979	14,413	35,159	2,141
Contractual retentions – Noncurrent	30,353	40,411	22,872	37,425
Total	**72,332**	**54,824**	**58,031**	**39,566**

The balances recorded under contractual retentions refer to amounts withheld by customers, as provided for in certain contracts, as a guarantee against any contingencies or non-compliance with labor obligations by the Company. Upon expiration of the contract term and in the absence of such events, the withheld amounts will be fully refunded to the Company, adjusted for inflation based on the CDI rate.

9. ESCROW DEPOSITS

	Consolidated		Parent	
	12/31/2025	12/31/2024	12/31/2025	12/31/2024
Labor/civil lawsuits	5,994	4,370	5,523	4,050
Tax lawsuits	491	2,745	491	2,745
Total	**6,485**	**7,115**	**6,014**	**6,795**

In addition to the balance above, the Company has R$30,064 in guarantees of lawsuits relating to a discussion on the payment of ISS (service tax). This amount is presented net of the corresponding entry recorded in liabilities in the same amount, under ISS payable. After acquisition of the UP Group, based on an understanding of the courts regarding the non-levy of ISS on chartering contracts entered into by Brazilian shipping companies, the Company ceased to issue invoices to collect chartering fees and, consequently, no longer accumulates this tax nor makes the respective escrow deposit. The Company continues to work with its lawyers in this proceeding and awaits a favorable outcome so that it may redeem the amounts deposited.

10. DEFERRED TAXES

	Consolidated		Parent	
	12/31/2025	12/31/2024	12/31/2025	12/31/2024
Deferred tax assets				
Income tax	119,664	116,159	51,325	55,679
Social contribution	46,822	45,190	19,658	20,937
Other taxes (*)	1,205	1,150	1,188	1,140
Total	**167,691**	**162,499**	**72,171**	**77,757**
Deferred tax liabilities				
Income tax	105	1,454	-	-
Total	**105**	**1,454**	**-**	**-**

(*) Refers to PIS and COFINS on repayments and interest on leases.

The deferred income tax and social contribution recorded in assets and liabilities are as follows:

	Consolidated		Parent	
	12/31/2025	12/31/2024	12/31/2025	12/31/2024

Maraú	9,045	9,141	9,045	-
OceanPact Logística	487	418	-	-
Aiuká	618	-	618	-
Total	**103,256**	**96,545**	**69,275**	**52,047**

During the year, based on the best assessment of income projections, the Company recognized deferred income tax on the tax loss carryforwards of its investees SLI and Marau, as well as the full balance of its investee UP.

As a result of the signing of a new three-year charter agreement for the vessel Parcel dos Meros, which will be used in a decommissioning contract, the investee Maraú now presents, in its economic and financial projections, evidence of generation of sufficient future taxable income for the recognition of deferred tax assets.

The investee SLI completed the merger of EnvironPact Consultoria and EnvironPact Sustentabilidade, as mentioned in Note 2.5. As a result of the corporate reorganization, SLI began to absorb the results of the acquired companies, which allowed for the recognition of the deferred tax asset balance previously not recognized.

The amounts recorded in the accounting records reflect the percentage of effective rate calculated. In the cases when the recorded amounts are lower than those estimated, the expected realization was evaluated by the Company's management, which concluded that there was low expectation of realization of the involved amounts. For recognition, Management took into consideration the following assumptions:

- US Dollar and Selic rate, based on projections of the Focus Bulletin.
- Revenue: daily rates already contracted with customers and use of current standard rates for future contracts.
- Occupancy rate: weighted average rate taking into account docking, standard downtime and commercial idleness between contract terms.
- Costs and expenses: adjusted based on the expected growth for the Company over the next few years.
- Depreciation: takes into account the useful life of existing assets, with addition of Capex for standard recurring maintenance of new dockings.
- Finance result: amortization of current debts on the contracted terms, and new borrowings under the same conditions aimed at covering cash needs while maintaining a minimal solid cash flow.

Based on Management's expectation, deferred tax assets arising from tax loss carryforwards, recognized as at December 31, 2025 in parent and consolidated, will be realized as shown below:

Year	Consolidated	Parent
2026	25,218	11,238
2027	11,804	-
2028	12,214	-
2029	7,749	
After 2030	12,290	-
Total	**69,275**	**11,238**

Accounting policy

Deferred income tax and social contribution are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, deferred taxes are also recognized in other comprehensive income or directly in equity, respectively. When deferred taxes arise from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Deferred income tax and social contribution – Deferred tax is recognized on certain costs or expenses that will be deductible in the calculation of taxable income in future periods. The deferred tax asset is recognized when it is probable that it will be recovered in future periods. The deferred tax liability arises from obligations that will become due in future periods.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates applicable in the period the liability is expected to be settled or the asset is expected to be realized based on tax laws and tax rates that have been enacted or substantively enacted at the reporting date.

Deferred tax liabilities and assets should be offset when: the Company has a legal right to offset the current taxes; and when these taxes relate to the same tax authority,

12.2. Acquisition of Aiuká Consultoria em Soluções Ambientais S.A.:

On January 2, 2025, EnvironPact Sustentabilidade e Resiliência Ltda. (EnvironPact Sustentabilidade) acquired, through its subsidiary EnvironPact Sustentabilidade e Resiliência, 95% of the share capital of Aiuká Consultoria em Soluções Ambientais S.A. for R$ 6.8 million. Aiuká Consultoria em Soluções Ambientais S.A. specializes in planning, rescuing and rehabilitating wildlife affected by oil spills and other environmental crises. The transaction strengthens OceanPact's service portfolio, expanding its presence in the environmental protection sector.

The total price paid consists of an initial lump-sum payment of R$ 5,890, made on January 2, 2025, and a second installment of R$ 950, recorded under "Other Payables," to be paid in 2027 adjusted for inflation based on the CDI rate.

EnvironPact Sustentabilidade has finalized the Purchase Price Allocation (PPA) report; therefore, the amounts presented below are the recognized amounts from the allocation of the purchase price paid in that business combination.

Contributory Assets	Fair value

13. RIGHT-OF-USE ASSETS

The Company has lease contracts for third-party properties and vessels, totaling 13 contracts in force signed by the Company and its subsidiaries as at December 31, 2025, in the consolidated. See note 19 for more information on the contracts.

The annual amortization rates used by the Company and its subsidiaries consider the terms of the respective lease contracts. In the year ended December 31, 2025, there was no need to recognize a loss allowance on assets of this nature.

(*) In the third quarter of 2025, lease agreements between the subsidiary OceanPact Netherlands and the parent OceanPact Serviços were remeasured.

Accounting policy

Right-of-use assets are depreciated over the shorter period of the lease term and the useful life of the underlying asset. However, when the agreement includes a purchase option that is reasonably certain to be exercised, depreciation is based on the asset's useful life. Under IFRS 16, lease agreements are remeasured when there is a modification to the terms and conditions that affect future payments. This may include changes in the agreement term, in the amounts of payments, or in the discount rate used. When this occurs, the entity is required to adjust the lease liability to reflect the new payment flows discounted at the revised rate. Simultaneously, the right-of-use asset is adjusted by the same amount, except in specific cases that require immediate recognition in profit or loss.

The annual depreciation rates used by OceanPact, for all reporting periods, considering new assets acquired, are listed below.

Assets	Annual rate
Vessels	5% and 10%
Machinery and equipment	10%
Computers and peripherals	20%
Furniture and fixtures	10%
Facilities	10%
Leasehold improvements and third-party vessels	(*)
Vehicles	20%
Docks	20% and 40%

(*) Depreciation over the lease term of third-party assets.

As at December 31, 2025, OceanPact performed an analysis of the indications of impairment, concluding that there are no indications of the need to recognize a provision for impairment of its property and equipment items.

Accounting policy

Property and equipment – Property and equipment are stated at acquisition or construction cost, less any accumulated depreciation calculated on a straight-line basis over their economic useful lives and impairment losses.

The estimated useful lives, residual values and depreciation methods are reviewed at the end of each reporting period, and adjusted on a prospective basis, when applicable.

Docking costs are capitalized and depreciated on a straight-line basis over the period during which these costs will generate economic benefits, so that they are fully depreciated before the subsequent docking date.

Impairment of non-financial assets – Management annually tests property and equipment and intangible assets for impairment to determine whether events or changes in economic, operating or technological circumstances indicate that they might be impaired. If there is such an indication, the recoverable amount of the asset is estimated to determine the extent of the impairment loss (if any).

Intangible assets with an indefinite useful life are tested for impairment at least annually and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pretax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is immediately recognized in profit or loss.

The reversal of the impairment loss is immediately recognized in profit or loss, as it eliminates the impairment loss that was recognized for the asset in previous years.

Significant accounting estimates and assumptions

Useful lives of property and equipment – During the last year, as a result of this assessment, Management established that the useful lives of its property and equipment items remained unchanged when compared to those adopted in the prior year.

Impairment of nonfinancial assets – An impairment loss is recognized when the carrying amount of an asset or cash-generating unit exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and its value in use. The calculation of fair value less costs to sell is based on available information on sales of similar assets or market prices less incremental costs to dispose of the asset. The value-in-use calculation is based on the discounted cash flow model.

Cash flows derive from the budget for the next years and do not include reorganization activities to which the Company and its subsidiaries have not yet committed or significant future investments that will improve the asset base of the cash-generating unit tested for impairment. The recoverable amount is sensitive to the discount rate used in the discounted cash flow method, as well as the expected future cash receipts and the growth rate used for extrapolation purposes.

15. INTANGIBLE ASSETS

	Consolidated								
	12/31/2023	Additions	Write-offs	Translation adjustment	12/31/2024	Additions	Write-offs	Translation adjustment	12/31/2025

	Parent					
	12/31/2023	Additions	12/31/2024	Additions	Write-offs	12/31/2025
Cost						
Software licenses	12,610	6,977	19,587	10,847	(67)	30,368
Accumulated amortization						
Software licenses	(4,756)	(1,751)	(6,507)	(3,774)	-	(10,281)
Total, net	**7,854**	**5,226**	**13,080**	**7,073**	**(67)**	**20,087**

The annual amortization rate for software licenses used by the Company is 20% for all reporting periods (parent and consolidated).

As at December 31, 2025, the Company reviewed the analysis of indicators, and concluded that there were no changes in assumptions that required the update of the last impairment test carried out.

Accounting policy

Intangible assets with finite useful lives that are acquired separately are carried at cost, less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over their estimated useful lives. The estimated useful lives and amortization method are reviewed at the end of each reporting period and the effect from any change in estimates is accounted for prospectively.

Intangible assets acquired in a business combination and recognized separately from goodwill are initially recorded at fair value on the acquisition date. Subsequent to initial recognition, intangible assets acquired in a business combination are stated at cost less accumulated amortization and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

16. LABOR OBLIGATIONS

	Consolidated		Parent	
	12/31/2025	12/31/2024	12/31/2025	12/31/2024
Salaries	15,306	14,595	11,554	11,572
13th month salaries	287	104	241	98

Total noncurrent	**18,121**	**4,662**	**18,121**	**4,662**

(*) In 2025, the Company reclassified the line item LTI (long-term incentives) to the group “Other Obligations”, previously presented in the group “Other Payables”, to better reflect the nature of compensation obligations. This balance represents the fair value of the variable portions of the RSU plans, accrued in liabilities, which will be paid to employees, preferably in cash, within the applicable periods of the fiscal year.

17. TRADE PAYABLES

	Consolidated		Parent	
	12/31/2025	12/31/2024	12/31/2025	12/31/2024
Local currency	110,965	79,501	81,004	47,688
Foreign currency	23,898	21,893	8,304	6,826
Trade payables - related parties (note 23)	-	1,981	32,999	10,981
Total	**134,863**	**103,375**	**122,307**	**65,495**

The Company did not carry out operations and does not present amounts contracted in forfeit transactions (also known as, “Confirming Operations”, “Reverse Factoring”, “Supply Finance”, “Payables Service Agreements”, “Trade/Vendor Financing”, among others) with financial institutions and suppliers.

Accounting policy

The balances of trade payables refer to obligations payable for goods or services that have been acquired or used in the ordinary course of business. They are classified as current liabilities if payment is due within 12 months, otherwise, they are presented as noncurrent liabilities. The operating provisions arise from costs and other operating expenses, related to services already provided and/or products delivered by the suppliers, generating a present obligation to the Company at the end of each reporting period, estimated based on contractual terms with its suppliers.

18. BORROWINGS, FINANCING AND DEBENTURES PAYABLE

18.1. Borrowings and financing

	Consolidated		Parent	
	12/31/2025	12/31/2024	12/31/2025	12/31/2024
BNDES	462,269	383,982	305,117	178,442
Caixa Econômica	218,498	18,507	218,498	18,507
FINEP	11,152	12,946	11,152	12,946
Banco Bocom BBM	-	17,706	-	8,551
Banco Santander	-	16,841	-	16,841
Total	**691,919**	**449,982**	**534,767**	**235,287**
Current	74,457	111,421	48,967	73,579
Noncurrent	617,462	338,561	485,801	161,708

Interest rates and maturity dates for outstanding borrowings and financing as at December 31, 2025 are detailed below.

Financial institutions	Purpose	Annual interest rate (%)	Maturity
BNDES	Vessel financing	USD + 2.40% to 3.91%	Sept/34
Caixa Econômica Federal	Working capital	CDI + 1.57%	Sept/28
FINEP	Project finance	TJLP	Apr/31
BNDES	Financing of dockings/modernization	USD + 2.20 to 3.00%	Sept/31

On September 17, 2025, the Company contracted a new borrowing of 210 million from CEF and settled in advance the previous borrowing of 9.4 million with the same institution, and also settled in advance the borrowing of 13.3 million with Banco Bocom BBM, both without prepayment penalties.

On December 3, 2025, the Company contracted borrowing of R$170,000 from the BNDES through the Merchant Marine Fund (FMM). This borrowing is intended to continue financing of investments in dockings and fleet modernization.

The borrowing from BNDES to the subsidiary OceanPact Navegação for the construction of two new vessels was signed on July 17, 2014, and contains a clause requiring the maintenance of a centralizing account, where the amount corresponding to at least three months of the monthly debt, including principal and interest, must be maintained (note 4). The borrowings from BNDES are indexed to the US dollar.

The variations in borrowings and financing are shown below:

	Consolidated	Parent
Balance as at 12/31/2023	**290,432**	**98,117**
New borrowings	164,577	164,578
Borrowing costs	(4,329)	(4,328)
Principal paid	(74,696)	(49,978)
Interest paid	(21,989)	(14,393)
Exchange rate changes	77,087	27,008
Accrued interest	18,900	14,283
Balance as at 12/31/2024	**449,982**	**235,287**
New borrowings	379,063	379,063
Principal paid	(106,151)	(70,674)
Interest paid	(20,432)	(14,291)
Exchange rate changes	(33,550)	(13,930)
Accrued interest	23,009	19,313
Balance as at 12/31/2025	**691,919**	**534,767**

The amounts payable until the settlement of the balances presented above, classified in noncurrent liabilities, are as follows (do not consider future charges):

Year	Consolidated	Parent
2027	170,302	144,812
2028	170,302	144,812
2029	65,302	39,812
After 2029	211,555	156,366
Total	**617,462**	**485,801**

OceanPact and its subsidiaries do not have past due installments as at the reporting dates.

The Company and its subsidiaries have borrowings and financing that contain financial and non-financial covenants, which, if not complied with, give rise to the accelerated maturity of the debts. In the quarterly disclosures for the year and at the base dates as at December 31, 2025 and 2024, all covenants were complied with.

These main covenants of borrowing and financing agreements are listed below:

Financial institutions	Main covenants
Caixa Econômica Federal	Ratio: Adjusted Net Debt (*) / Adjusted EBITDA • Less than or equal to 2.60x on a quarterly basis and at 12/31/2025
BNDES	Maintenance of the balance of the centralizing account, compliance with certain obligations related to training in the event of a reduction in personnel, and adoption of measures to protect the environment.

(*) For purposes of measuring the financial ratios, Adjusted Net Debt considers the Company's net bank debt by converting the debts to the US dollar using the average exchange rate of the 12 months prior to the index calculation, and impacts arising from the adoption of technical pronouncement CPC 06 (R2) / IFRS 16 up to 11/18/2021, and the Company's Adjusted EBITDA comprises profit before taxes, before finance income (costs), before depreciation and amortization expenses, and before any customers' contractual fines and any asset impairments costs.

(**) The financial indicators pegged to the debt covenants are assessed on a quarterly basis, considering the Adjusted EBITDA of the last 12 months. Should the Company fail to comply with these covenants for two consecutive periods or three alternating periods, an early maturity action will be possible.

In addition to the main covenants mentioned above, some contracts have certain obligations with respect to financial statements, prior approval in the event of changes in shareholding control, among others.

Accounting policy

The Company and its subsidiaries record their borrowings and financing based on the amortized cost using the effective interest method. Any gains and losses are recognized in the statement of profit or loss when liabilities are derecognized, as well as during the amortization process using the effective interest method.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Interest on borrowings and financing is capitalized as part of property and equipment if, and only if, these costs are directly related to the qualifying asset. Capitalization takes place until the qualifying asset is ready for its intended use. There was no capitalized interest in the years presented in these financial statements.

18.2. Debentures payable

	Consolidated and Parent	
	12/31/2025	12/31/2024
Current	73,831	159,789
Noncurrent	1,173,247	1,058,998
Total	**1,247,078**	**1,218,787**

The variations in debentures payable are shown below:

	Consolidated and Parent
Balance as at 12/31/2023	**848,715**
New borrowings	800,000
Issue costs	(13,813)
Costs allocated	16,356
Accrued interest	143,186
Principal payment	(439,000)
Interest payment	(136,657)
Balance as at 12/31/2024	**1,218,787**
New borrowings	490,680
Issue costs	(481)
Costs allocated	10,640
Accrued interest	203,420
Principal payment	(490,273)
Interest payment	(185,695)
Balance as at 12/31/2025	**1,247,078**

Main information on the debentures issued is as follows:

OPERATION	DEBENTURES 05	DEBENTURES 06	DEBENTURES 07
Series	Single	Single	Single
Issue date	07/10/2024	12/18/2024	06/30/2025
Issue amount	300,000	500,000	500,000
Annual yield rate	CDI + 2.95%	CDI + 2.50%	CDI + 2.00%
Repayment	Monthly (1-year grace period and amortization in 49 installments)	Monthly (3-year grace period and amortization in 24 installments)	Monthly (3-year grace period and amortization in 25 installments)
Covenants (financial ratios measured annually)	Ratio: Adjusted Net Debt/Adjusted EBITDA (**) - up to 2.5x on a quarterly basis	Ratio: Adjusted Net Debt/Adjusted EBITDA (**) - up to 2.5x on a quarterly basis	Ratio: Adjusted Net Debt/Adjusted EBITDA (**) - up to 2.5x on a quarterly basis

(**) See note 18.1.

The Company informs that all covenants were complied with as at the base date of December 31, 2025.

The amounts payable until the settlement of the balances presented above, classified in noncurrent liabilities, are as follows (do not consider future charges):

Year	Consolidated and Parent
2027	94,683
2028	465,182
2029	510,465
2030	102,917
Total	**1,173,247**

19. LEASE LIABILITIES

	Consolidated	Parent
Lease liabilities as at 12/31/2023	**42,677**	**178,127**
Principal paid	(18,351)	(43,798)
Interest paid	(5,190)	(20,933)

Other	(191)	(863)
Lease liabilities as at 12/31/2025	**144,675**	**201,720**

The Parent has a balance of R$201,720 of lease liabilities as at December 31, 2025 (R$153,242 as at December 31, 2024), of which R$57,045 refers to related-party transactions as at December 31, 2025 (R$123,503 as at December 31, 2024).

	Consolidated		Parent	
	12/31/2025	12/31/2024	12/31/2025	12/31/2024
Lease liabilities - current	31,451	2,775	127,109	66,231
Lease liabilities - noncurrent	113,223	26,964	74,611	87,011
Total lease liabilities	**144,675**	**29,739**	**201,720**	**153,242**

Accounting policy

The Company uses incremental rates on Company borrowings in order to discount cash flows from lease payments, whose implied rates cannot be immediately determined. The incremental rates are estimated based on corporate borrowing rates (bonds issued by OceanPact), which take into account the Company's risk-free rate and credit risk premium, further adjusted to reflect the specific conditions and characteristics of leases, such as the risk of the country’s economic environment, impact of guarantees, currency, duration of the respective payment flow and the commencement date of each contract.

The lease liability is measured at amortized cost using the effective interest method and remeasured when there is a change in future lease payments as a result of a change in an index or a rate. When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the leased asset or is recognized directly in profit or loss for the year if the carrying amount of the asset has already been reduced to zero.

Significant accounting estimates and assumptions

Measurements of lease discount rates – The discount rates applied in the measurement of rights of use and lease liabilities were defined by the Company and its subsidiaries considering the incremental rates, since the signed contracts do not have the implicit rate information. To determine the incremental rates, used as discount rates, the Company and its subsidiaries used information from the borrowings/debentures contracts, and adopted assumptions, such as OceanPact’s capital structure and the risk of the country's economic environment.

20. TAXES PAYABLE

	Consolidated		Parent

Total noncurrent	**20,003**	**30,359**	**1,933**	**2,680**

(a) Fines due to breach of contractual clauses with customers, excess fuel consumption and oil consumption during vessel unavailability. For consolidated purposes, the main noncurrent balance as at December 31, 2025, in the amount of R$17,743, refers to the subsidiary UP Apoio, mainly related to the charge of excess fuel use under the contract already terminated for the vessel Parcel do Bandejo (formerly UP Pearl), a matter currently under litigation (R$27,129 as of December 31, 2024).

(b) Guarantee pledged by the Company for the payment of Servmar's bank debt with BBM, within the scope of the agreement for disposal of former subsidiary Servmar, and settled in September 2025.

Accounting policy

The contractual fines received through notifications from customers are classified by the legal department as probable, possible and remote, being discussed at the administrative level. Notifications considered probable loss are provisioned. In addition, the Company assesses penalties incurred and not yet notified with regard to excessive oil consumption and oil consumption during the period of unavailability of vessels, recording provisions in the proper periods.

22. PROVISION FOR RISKS

The Company and its subsidiaries are parties to administrative and judicial proceedings involving tax, civil and labor matters arising in the normal course of their business, making escrow deposits when necessary. The provision for losses on these lawsuits is estimated and updated by Management based on the opinion of its outside legal counsel. As at December 31, 2025 and December 31, 2024, the variations in the balance are as follows:

	Consolidated				Parent		
	Labor	Civil	Tax	Total	Labor	Civil	Total
Balance as at 12/31/2023	**15,543**	**811**	**12,607**	**28,961**	**821**	**134**	**955**
Provisions	1,027	-	-	1,027	197	-	197
Reversals	(12,919)	(204)	(10,638)	(23,761)	(393)	-	(393)
Balance as at 12/31/2024	**3,651**	**607**	**1,969**	**6,227**	**625**	**134**	**759**
Provisions	1,121	571	-	1,692	282	555	837
Reversals	(781)	(184)	(784)	(1,749)	(268)	-	(268)
Reclassification	(1,265)	(118)	1,383	-	-	-	-
Balance as at 12/31/2025	**2,726**	**876**	**2,568**	**6,170**	**639**	**689**	**1,328**

Provisions for labor contingencies arise from various lawsuits and concern discrepancies in overtime pay, salary equalization, and other issues.

The tax risks relate to customs infraction notices issued against the subsidiary UP, which are currently being discussed in the administrative sphere.

Contingent liabilities assessed as possible loss

The legal and administrative proceedings whose expectation of loss is assessed as possible, based on the understanding of the Company's outside legal counsel, do not have a corresponding provision recognized. These lawsuits are as follows:

	Consolidated		Parent	
	12/31/2025	12/31/2024	12/31/2025	12/31/2024
Labor (a)	35,852	33,212	17,053	12,284
Civil (b)	27,721	34,098	1,077	3,792
Tax (c)	16,500	20,658	4,392	8,488
Total	**80,073**	**87,968**	**22,522**	**24,564**

The main contingencies as at December 31, 2025 assessed as possible loss refer to:

(a) Sundry labor claims related to overtime, severance pay, accumulation of functions, among others.

(b) Three civil lawsuits involving Petrobras, aimed to overturn undue contractual fines in the estimated amount of R$21 million, of which (i) R$11.7 million in environmental collection and analysis services, a case in which a favorable decision was issued at the lower court and recently, on February 4, 2026, the decision at the higher court was published overturning the entirety of the applied fine, (ii) R$5.3 million in geological services and (iii) R$3.7 million related to delays in complying with an ICS contractual requirement, these last two have injunctions granted preventing discounting until a decision is handed down at the lower court. Other amounts referring to civil lawsuits classified as possible loss in which the Company is a defendant are distributed among several proceedings.

(c) Seven tax lawsuits related to statement of non-conformity with the negative balance of income tax and social contribution in 2013, 2014, 2016 and 2018 in the estimated amount of R$7.4 million (R$8.6 million as at December 31, 2024). In addition, it includes an Administrative proceeding in the estimated amount of R$9 million referring to a tax assessment notice recorded in UP Offshore, for failure to comply with an ancillary obligation as part of the process of canceling an Invoice after the permitted term.

In addition to the contingent liabilities presented above, the Company has contingent assets in a significant amount, which are not accounted for. The main amounts refer to judicial claims of subsidiary UP, which seek the collection of daily rates related to contracts signed with Petrobras, which were terminated under the allegation of failure to renew the Charter Authorization Certificates (CAA) for the vessels that are the subject of these contracts. These terminations were challenged in court by subsidiary UP; the Company's legal counsel expects a favorable outcome in these claims. Among the contingent assets, two stand out because of the last developments of the lawsuits related to the vessels UP Coral and UP Turquoise.

In June 2023, the subsidiary UP Offshore Apoio Marítimo contracted the partial assignment of credit rights, with no right of recourse, that are the subject of these lawsuits. As a result of the assignment of rights, on July 4, 2023, UP Offshore received the amount of R$100 million, while also preserving the right to a future majority participation in the amount actually recovered from the assigned credit rights exceeding the amount initially received, adjusted under the terms agreed between the parties involved in the assignment.

The current status of the lawsuits is shown in the table below:

Vessel	Amount involved	Period	Status
UP Coral	USD 65.4M + R$33.4M	Mar/2018 to Aug/2021	Petrobras was sentenced to pay the daily rates arising from the wrongful contract termination at the lower and higher courts and appealed to the Superior Court of Justice (STJ) (*)
UP Turquoise	USD 11.5M + R$7.2M	Jun/2015 to Jan/2017	Final and unappealable decision favorable to UP and beginning of the sentence enforcement phase (**)
UP Pearl	R$16.2M	Sept/2015 to Nov/2017	A decision was rendered at the lower court, sentencing Petrobras to pay the daily rates arising from wrongful contract termination. Both parties filed appeals, with UP seeking to challenge the inflation adjustment and late payment interest applied to the amounts owed by Petrobras
UP Esmeralda	R$13.7M	May/2015 to Jul/2017	A decision was rendered at the lower court, sentencing Petrobras to pay the daily rates arising from wrongful contract termination. Both parties filed appeals, with UP seeking to challenge the inflation adjustment and late payment interest applied to the amounts owed by Petrobras
UP Amber	R$13.7M	Sept/2015 to Aug/2017	A decision was rendered at the lower court, sentencing Petrobras to pay the daily rates arising from wrongful contract termination. Both parties filed appeals, with UP seeking to challenge the inflation adjustment and late payment interest applied to the amounts owed by Petrobras.

(*) Decision favorable to subsidiary UP Offshore at the lower and higher courts, which became final and unappealable as Petrobras did not file an appeal in a timely manner after the publication of the Decision at the higher court. Petrobras understood that the subpoena received from the Court of Rio de Janeiro presented failure in addressing and appealed to the Superior Court of Justice (STJ). On February 25, 2025, a single-judge decision favorable to UP was published, denying Petrobras' appeal. On March 13, 2025, Petrobras filed a new appeal (Interlocutory Appeal) addressed to the collegiate body, which was denied on June 23, 2025. Subsequently, Petrobras filed a new appeal (Motion for Divergence), which was not admitted on February 26, 2026. The decision was published in the Official Gazette on March 2, 2026. Petrobras is expected to file appeals until March 23, 2026.

(**) The subsidiary UP Offshore prevailed at the lower and higher courts, and the decision became final and unappealable. The amount claimed by UP during the judgment enforcement phase was R$ 195,807,031.06. Petrobras objected to the judgment enforcement and deposited the amount of R$ 114,731,170.65 (undisputed), requesting settlement through arbitration. The request was denied on the grounds that it involved a mere arithmetic calculation; Petrobras filed an appeal against this decision at the higher court. The undisputed amount was withdrawn, and the net amount, after deduction of attorneys' fees, was paid in full to the acquirer of the credit rights. At the higher court, the appeal filed by Petrobras against the decision that did not order the settlement by arbitration was dismissed, which is why Petrobras filed a new appeal so that the matter can be directed to STJ. At the lower court, an order was issued to send the case records to the Judicial Accounting Office for the calculation of amounts. Subsequently, UP filed an appeal requesting the establishment of the parameters to be adopted by the accounting office (such as interest, inflation adjustment, and dollar conversion date), which is currently pending judgment.

Accounting policy

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle that obligation and a reliable estimate can be made of the amount of the obligation.

Expenses relating to any provision are presented in the statement of profit or loss. If the effect of the time value of money is material, the provisions are discounted using a current rate before taxes that reflects, when appropriate, the risks specific to the liability. When a discount is adopted, the increase in the provision due to the passage of time is recognized as a borrowing cost.

Significant accounting estimates and assumptions

Provision for risks – The Company and its subsidiaries recognize a provision for tax, civil and labor claims, when applicable. The assessment of the likelihood of loss includes the assessment of available evidence, hierarchy of laws, available case laws, recent court decisions and their relevance in the legal system, as well as the assessment made by outside legal counsel. Provisions are reviewed and adjusted so as to consider changes in circumstances, such as applicable statute of limitations, the completion of tax audits or additional exposures identified based on new matters or court rulings.

23. RELATED PARTIES

23.1. Compensation of key management personnel

The statutory officers make up the Company's key management personnel (Management).

	Consolidated		Parent	
	2025	2024	2025	2024
Compensation of the executive board (fees and charges)	12,937	11,709	6,906	6,813

Total	**41,339**	**28,827**	**31,485**	**19,791**

(*) 1/3 of the total fees (which are entirely fixed) is paid in shares issued by the Company, with a three-year lock-up period.

The Company does not have an established Supervisory Board.

Long-Term Incentives (LTI)

OceanPact has programs for granting restricted shares and options as long-term compensation for its officers and other employees appointed by Management.

The number of shares that can be granted under the 1st Share-based Compensation Plan was approved at the General Meeting held on November 27, 2020 and is limited to a maximum of 3% of the Company's share capital. On April 10, 2025, the General Meeting approved the 2nd Share-based Compensation Plan, with an additional limit of 3% of the Company's share capital for the granting of shares and options.

The following table presents a summary of the shares granted for the 1st, 3rd and 4th programs, and a summary of the variable installments (Additional Variable Compensation) and options granted:

RSU – fixed installment	Lot	Agreement date	Estimated share transfer date	Number of shares related to fixed installments
1st Program	-	01/01/2022	Already transferred	600,000
3rd Program	1	06/30/2022	Already transferred	876,892
3rd Program	2	06/30/2023	2026	613,745
3rd Program	3	06/30/2024	2027	735,710
4th Program	1	01/01/2025	2028	1,200,000
4th Program	2	06/30/2025	2028	873,516

Additional Variable Compensation and Options – variable installment	Lot	Agreement date	Type	Number of shares or options	Base price (*)	Exercise dates of the Additional Variable Compensation or option	Fair Value of the Additional Variable Compensation or option as at December 31, 2025
1st Program	1	01/01/2022	Additional	400,000	5.00	2025 to 2027	2.48
1st Program	2	01/01/2022	Additional	400,000	7.00	2026 to 2028	1.99
1st Program	3	01/01/2022	Additional	400,000	11.15	2027 to 2029	1.27
3rd Program	1	06/30/2022	Additional	1,753,783	5.00	2025 to 2027	2.65
3rd Program	2	06/30/2023	Additional	1,227,490	7.00	2026 to 2028	2.13
3rd Program	3	06/30/2024	Additional	1,471,420	8.00	2027 to 2029	2.42
4th Program	1	01/01/2025	Options	1,200,000	5.79	2028 to 2031	2.13
4th Program	2	06/30/2025	Options	1,326,503	6.24	2028 to 2031	3.56

(*) RAV's target price is adjusted for inflation based on IPCA + 5% p.a.

(**) For the 3rd and 4th Programs, the vesting period is of 3 years, conditioned on the executives remaining in the Company.

The contracts relating to the 1st and 3rd programs have a variable installment (RAV) that entitles the beneficiary to receive an amount calculated according to the formula RAV = 2 X Fixed Installment X (Exercise Price – Inflation-Adjusted Base Price). The beneficiary may submit a request to receive this amount on the 3rd, 4th, or 5th anniversary of the signing date of each Contract.

The fair value of RAV was determined based on the Monte Carlo method ("MMC"), taking into account market conditions and the following assumptions:

a. For expected volatility, the Company used data related to the behavior of the shares of compatible companies disclosed by Damodaran for different geographic regions;

b. For dividend distribution, the plan considers an assumption of dividend distribution in line with market peers;

c. For risk-free interest rate, Management used the Neperian logarithm on rates, based on the future curve of DI x Fixed rate, disclosed by B3;

(**) For the 3rd Program, the vesting period is of 3 years, conditioned on the executives remaining in the Company. The fair value of the fixed installments of the 1st and 3rd Programs is recognized monthly in the statement of profit or loss, during the vesting period, with a corresponding entry in equity, while the fair value of the variable installments, which will be settled preferably in cash, is recognized monthly in the statement of profit or loss with a corresponding entry in liabilities.

Regarding the fair value of the Stock Options in the 4th Program, it was determined based on the Hull & White Binomial model because, according to the standard, it better reflects the conditions for early exercise of the options.

In relation to the 2nd Program, applicable only to Directors, its system is simpler, it basically consists of the payment of part of the fixed compensation in the form of shares issued by OceanPact, with these shares subject to a 3-year lockup. Up to December 31, 2025, 876,892 shares referring to the 2nd Program were granted.

Accounting policy

The plans can be settled both in cash and in shares. For the variable installment, which will be settled preferably in cash, cost is recognized in employee benefit expenses, with the corresponding entry resulting in variations in liabilities. For the fixed installment, which will be settled in shares, cost is recognized in employee benefit expenses, with the corresponding entry resulting in variations in equity.

All loan agreements entered into between the Company and its investees have a fixed amount and an indefinite payment term, with no interest. The variations in the balances of intragroup loans and borrowings are shown below, with the total with OceanPact Navegação for cash use in its commitments to third parties, in the years ended December 31, 2025 and December 31, 2024:

Intragroup loans				
Parent				
12/31/2023	Offsetting	12/31/2024	Offsetting	12/31/202
51,443	(19,348)	32,095	(12,730)	19,365

As at December 31, 2025, the Company is a party to contracts for sharing administrative expenses with its investees EnvironPact Sustentabilidade, OceanPact Geociências, OceanPact Navegação, UP Group and Maraú. The agreements provide that the Company must be reimbursed in a percentage negotiated between the parties for its administrative expenses (personnel, office supplies, etc.), as its investees benefit from its structure. The balance receivable from investees as at December 31, 2025 is R$2,906 (R$4,448 as at December 31, 2024).

24. EQUITY

24.1. Share capital

The Company's fully paid-up capital as at December 31, 2025 and 2024 was R$803,663, represented by 199,959,554 registered common shares with no par value, held as follows:

	As at December 31 2025 and 2024	
Shareholders	**Number of shares**	**Equity interest (%)**
Flavio Nogueira Pinheiro de Andrade	61,590,904	30.80%
Dynamo - Asset management	22,942,201	11.47%
Shareholders and officers	18,899,833	9.45%
Hix Capital	16,732,661	8.37%
Organon Capital	10,852,336	5.43%
Treasury shares	612,201	0.31%
Other outstanding shares	68,329,418	34.17%
Total	**199,959,554**	**100.00%**

24.2. Capital reserves

This represents the goodwill generated in the amount of R$78,701 on the issue of 1,300,627 shares in 2013, subscribed by the shareholder Dyna II Fundo Investimento em Participações, less new share issue costs of R$2,354.

In 2014 the shareholder Dyna II Fundo Investimento em Participações made an additional capital contribution of R$7,242, referring to the difference between the result expected at the time of the assessment and the actual result as at December 31, 2013, as provided for in the contractual clause. This contribution does not represent an increase in the equity interest of such shareholder and was recognized as a capital reserve of goodwill.

The goodwill on the granting of treasury shares of R$7,867 as at December 31, 2025, recorded in the capital reserve, arises from the differences between the market value upon the delivery of the respective shares and the historical cost recorded in equity. Additionally, the capital reserve was increased by R$ 1,560, due to the accounting recognition of the granting of equity instruments within the scope of the Stock Option Plan (SOP), according to the determination of the fair value of the instruments granted.

24.3. Earnings reserve and distribution of profits

i. Legal reserve: Calculated at 5% of profit for the year as provided for in article 193 of Law 6404/76 up to the limit of 20% of the capital. The Company may not recognize the legal reserve in the year in which the balance of this reserve, plus the amount of capital reserves, exceeds 30% of the capital. This reserve should be used to offset accumulated losses or to increase capital.

ii. Investment reserve: represents the balance of retained earnings for investment in the Company's activity, based on its capital budget.

iii. Distribution of profit: a minimum mandatory dividend corresponding to 25% of the profit for the year is guaranteed to shareholders, after recognition of the legal reserve, adjusted for any reserves for contingencies and respective reversals, as applicable, calculated in accordance with accounting practices adopted in Brazil. In the year ended December 31, 2025, the Company allocated R$4,844 to mandatory minimum dividends payable. Additionally, the Company recorded proposed dividends of R$14,532 to be approved at the General Meeting.

Reconciliation	Balance - 2025
Accumulated losses	(85,094)
Profit for the year - 2025	105,489
Balance of retained earnings	**20,395**
Allocation to legal reserve – 5%	1,020
Mandatory dividends – 25%	4,844
Additional dividends proposed	14,532

24.4. Basic and diluted earnings (loss) per share

Basic earnings (loss) per share are calculated by dividing the profit (loss) attributable to owners of the Company by the weighted average number of common shares outstanding during the period, excluding those held in treasury.

Diluted earnings (loss) per share are calculated by adjusting the weighted average number of common shares outstanding to assume conversion of all dilutive potential common shares.

	2025	2024
Profit (loss) attributable to the owners of the Company	105,489	(15,598)
Weighted average number of common shares (less treasury shares)	198,654,746	198,527,142
Basic earnings (loss) per share (in R$)	**0.5310**	**(0.0786)**
Profit (loss) attributable to owners of the Company	105,489	(15,598)
Weighted average number of common shares for diluted earnings	199,266,947	200,230,763
Diluted earnings (loss) per share (in R$)	**0.5294**	**(0.0779)**

24.5. Other comprehensive income

In accordance with the provisions of CPC 02 (R2) - The Effects of Changes in Foreign Exchange Rates and Translation of Financial Statements, equivalent to IAS 21, which determines that the adjustments of exchange rate changes to foreign investments are recognized in the parent's equity, the Company recognized line item "Cumulative translation adjustments", arising from the translation of the financial information and its foreign subsidiaries and the translation of the respective goodwill arising from their acquisitions, when applicable. As at December 31, 2025, this line item had a credit balance of R$95,816 and a credit balance of R$186,556 as at December 31, 2024. This variation is mainly due to the variations in the year ended December 31, 2025, in the main functional currencies of the subsidiaries, other than Real.

24.6. Treasury shares and share plan

On May 13, 2024, the Company's Board of Directors approved the share buyback program, authorizing the acquisition of up to 5,998,787 common shares issued by the Company, corresponding to 3% of its total share capital.

The buyback program is aimed at allowing the acquisition of shares in order to meet the Company's obligations under its Share-Based Payment Plan and is effective for eighteen months, ending on November 13, 2025.

Up to December 31, 2025, the Company repurchased a total of 753,700 shares.

	12/31/2025	12/31/2024
Treasury shares	(2,178)	(6,053)
Grants - RSU Plan	14,633	6,753
Total treasury shares and	**12,455**	**700**

Net revenue	**2,133,917**	**1,721,058**	**1,604,142**	**1,321,359**

(*) Refers to taxes levied on revenue, with 7.6% referring to COFINS, 1.65% to PIS and 2% to 5% to ISS on services provided.

In the year ended December 31, 2025, the Company's main customers were Petrobras Petróleo Brasileiro S.A., BW Energy Maromba do Brasil Ltda. and Saipem do Brasil, accounting for 72% of consolidated gross revenue. The customer Petrobras Petróleo Brasileiro S.A. accounted for 53% of the total consolidated gross revenue and, together with other Petrobras Group companies (Petrobras Transporte S.A. - Transpetro and Petrobras Logística de Exploração e Produção S.A.), accounted for 57% of consolidated gross revenue.

In the year ended December 31, 2024, the Company's main customers were Petrobras Petróleo Brasileiro S.A., BW Energy Maromba do Brasil Ltda. and Equinor Brasil Energia LTDA, accounting for 74% of consolidated gross revenue. The customer Petrobras Petróleo Brasileiro S.A. accounted for 60% of the total consolidated gross revenue and, together with other Petrobras Group companies (Petrobras Transporte S.A. - Transpetro and Petrobras Logística de Exploração e Produção S.A.), accounted for 64% of consolidated gross revenue.

Accounting policy

Revenue from services – Revenue from services is measured based on the fair value of the consideration that the Company and its subsidiaries expect to receive under a contract with the customer, excluding discounts, rebates and taxes or charges incurred, recorded when it provides the service to the customer.

The Company and its subsidiaries provide services to third parties, which are recognized as a performance obligation satisfied over time. Revenue is recognized for these services based on the stage of completion of the contract, when applicable, in which the stage of completion is determined as the proportion of the total expected period for providing the service.

26. SEGMENT REPORTING

The segment reporting is presented in relation to the Company's businesses, which were identified based on the management structure and internal managerial information.

The Company's Management considers that the segments are: (i) vessels and (ii) services.

The Company's chief decision maker does not analyze certain statement of profit or loss accounts such as finance income, income taxes, in addition to the balance sheet accounts segregated by operating segments. Therefore, this segment information is not being presented.

The main information about results by business segment is summarized below:

Year ended December 31, 2025	Vessels	Services	Eliminations	Consolidated
Net revenue	1,325,975	833,141	(25,199)	2,133,917

Current	(37,318)	(19,000)	(22,395)	(11,168)
Deferred	693	(8,124)	(9,615)	(14,838)

Accounting policy

Current income tax and social contribution are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, current taxes are also recognized in other comprehensive income or directly in equity, respectively. When current taxes arise from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Current income tax and social contribution – Current taxes are based on taxable profit for the year and calculated pursuant to the effective tax laws. The Company and its subsidiaries' current tax liabilities are calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

31. FINANCIAL INSTRUMENTS

The Company and its subsidiaries performed an assessment of their financial assets and liabilities in relation to the fair values based on available information and appropriate valuation methodologies. However, the interpretation of market data and the selection of valuation methods require considerable judgment and estimates to calculate the most appropriate realizable value. As a consequence, the estimates presented do not necessarily indicate the amounts that could be realized in the current market. The use of different market hypotheses and/or methodologies may have a material effect on the estimated realizable values.

Measurement of fair values

The fair value of financial assets and liabilities is included in the amount by which the instrument could be exchanged between parties willing to negotiate, and not in a forced sale or settlement.

Management understands that the balances due from/to related parties and the balance of borrowings and financing with BNDES, the latter indexed to the US dollar, have agreed conditions that are specific to this transaction and, therefore, it understands that the carrying amounts approximate their fair values. The borrowings with private banks are agreed at current market rates pegged to the CDI and TJLP, as the case may be, and therefore reflect the current market value. The fair values of the other financial instruments held by the Company and its subsidiaries approximate their carrying amounts considering their nature, maturity and expectation of loss.

The classification of the Company's financial instruments as at December 31, 2025 is as follows:

Financial instrument	Category and form of measurement
Cash and banks	Amortized cost
Financial investments	Amortized cost
Trade receivables	Amortized cost
Loans to related parties	Amortized cost
Other receivables, except prepaid expenses	Amortized cost
Trade payables	Other liabilities measured at amortized cost
Creditors from financing	Other liabilities measured at amortized cost
Borrowings and financing	Other liabilities measured at amortized cost
Debentures payable	Other liabilities measured at amortized cost
Lease liabilities	Other liabilities measured at amortized cost
Intragroup borrowings	Other liabilities measured at amortized cost

a) Foreign exchange risk

OceanPact contracts, if needed, liability financial instruments that may have an impact on future cash flows arising from significant changes in the exchange rate of the US dollar against the real. These operations are mainly comprised of leases, trade payables, and borrowings and financing, the latter of which has a significant balance payable.

In order to hedge against the aforementioned passive variations, OceanPact, when signing contracts with Petrobras, indexes part of the revenue to the US dollar fluctuations, and the amount varies according to the identified needs. Management monitors exchange rate changes and their possible impacts on its operations.

b) Interest rate risk

The Company is exposed to interest rate risk on its financial investments pegged to the CDI and on certain borrowings and financing, pegged to the CDI and TJLP, as the case may be, and Management monitors the levels and expectations of the CDI and TJLP rates and the possible impacts on its operations.

c) Market risk

On consolidated basis, the customer Petrobras Petróleo Brasileiro S.A. accounted for 53% of the consolidated gross revenue for the year ended December 31, 2025 and, together with other Petrobras Group companies (Petrobras Transporte S.A. - Transpetro and Petrobras Logística de Exploração e Produção S.A.), accounted for 57% of the consolidated gross revenue for the year ended December 31, 2024.

d) Liquidity risk

The Company and its subsidiaries manage the liquidity risk by maintaining adequate reserves and bank credit facilities, by monitoring cash flows and maturity profiles.

The tables below show the maturity analysis for outstanding financial liabilities as at December 31, 2025 and 2024 (undiscounted):

	Consolidated		Parent	
	12/31/2025	12/31/2024	12/31/2025	12/31/2024
Up to 1 year	134,863	103,375	122,307	65,495
Trade payables	**134,863**	**103,375**	**122,307**	**65,495**
Up to 1 year	170,302	57,556	144,812	27,491
From 1 to 2 years	170,302	87,421	144,812	41,755
From 2 to 5 years	276,858	193,584	196,177	92,463
Borrowings and financing	**617,462**	**338,561**	**485,801**	**161,708**
Up to 1 year	94,683	200,000	94,683	200,000
From 1 to 2 years	465,182	608,333	465,182	608,333
From 2 to 5 years	613,381	250,665	613,381	250,665
Debentures payable	**1,173,247**	**1,058,998**	**1,173,247**	**1,058,998**
Up to 1 year	20,235	4,260	32,640	63,595
From 1 to 5 years	30,997	14,242	25,323	72,169
After 5 years	61,991	55,084	16,648	55,084
Lease liabilities	**113,223**	**73,586**	**74,611**	**190,847**

As mentioned in note 23, intragroup loans and borrowings have an indefinite term and, therefore, were not included in the table above.

e) Sensitivity tables

The Company and its subsidiaries performed sensitivity analysis tests as required by accounting practices adopted in Brazil and the IFRS, prepared based on the net exposure to the variable rates of the relevant financial assets and liabilities, outstanding at the end of the period, assuming that the value of the following assets and liabilities was outstanding for the entire period, adjusted based on the estimated rates for a probable scenario of the risk behavior that, if it occurs, may generate adverse results. The rates used to calculate the probable scenarios are referenced by an independent external source, which are used as a basis for the definition of two additional scenarios with stress of 25% and 50% in the risk variable considered (scenarios A and B, respectively) in net exposure, when applicable, as shown below:

Foreign exchange variation - USD

As at December 31, 2025, the Company had R$8,303 payable to foreign suppliers pegged to the US dollar. In the consolidated, OceanPact had balances payable to foreign suppliers pegged to the US dollar of R$19,804 and financing with BNDES of R$462,269. These payables referring to trade payables, lease liabilities and BNDES financing are pegged to the US dollar converted into reais at the prevailing rate.

The effects on profit or loss before taxes, considering the year ended December 31, 2025, are shown below, with market expectation data from the Focus bulletin (BACEN) released on February 23, 2026.

Consolidated - 12/31/2025	Balance in R$	Balance in USD thousand
Operations		
Trade payables	19,804	3,599
Borrowings and financing	462,269	84,012

Interest rate - TJLP

As at December 31, 2025, the Company and its subsidiaries have consolidated liability balances pegged to the TJLP rate, basically consisting of borrowings and financing. As at December 31, 2024, such balances have a net liability exposure of R$11,152 in parent and consolidated.

A TJLP projection of 9.07% was assessed based on BNDES disclosures, which was defined as a probable scenario. From this scenario variations of 25% and 50% of the index were calculated representing the conditions corresponding to different, always deteriorating scenarios.

Consolidated and Parent	Balance as at	Index
Operations		
Borrowings and financing	11,152	TJLP

Consolidated and Parent		Scenarios		
Interest rate changes	12/31/2025	Probable	25%	50%

Borrowings and financing	11,152	1,011	1,264	1,517
Expense		**1,011**	**1,264**	**1,517**

Accounting policy

Financial assets and financial liabilities are recognized in the Company's balance sheet when they become a party to the contractual provisions of the instrument.

Financial assets – OceanPact classifies its financial assets under the following measurement categories:

- Measured at fair value through profit or loss.
- Measured at amortized cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Financial liabilities – All the financial liabilities are initially measured at their fair value, plus or less, in the case of financial liability that is not measured at fair value through profit or loss, the transaction costs that are directly attributable to the issuance of the financial liability.

For purposes of subsequent measurement, financial liabilities are classified by the Company and its subsidiaries in two categories:

- Financial liabilities at amortized cost.
- Financial liabilities at fair value through profit or loss.

Impairment of financial assets – The Company and its subsidiaries recognize an allowance for expected credit losses for all debt instruments not held at fair value through profit or loss.

Derivative financial instruments - Hedge Accounting – In the last years, OceanPact contracted forward derivative financial instruments through a Non-Deliverable Forward (NDF) operation. This operation qualifies for hedge accounting and aims to mitigate the effects of foreign exchange variations in the Company's operational result by hedging a part of its income from contracts already entered into with its customers and with a high probability of realization. On the maturity date, the settlement amount is calculated by the difference between the forward rate contracted and the market rate defined as reference. This operation aims to partially eliminate the variation impact of the revenues pegged to the US dollar in the generation of cash from operations, making the Company's cash flows more predictable.

The contracted operation was initially designated as a cash flow hedge, being directly recognized in equity under other comprehensive income up to its settlement. The amounts accounted for in other comprehensive income will be transferred to the statement of profit or loss when the hedged transaction affects profit or loss, for example, when the hedged income or expense is recognized.

Offsetting of financial instruments – Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet only if there is a legally enforceable right to set off the recognized amounts and the intention to either settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

Significant accounting estimates and assumptions

Fair value of financial instruments – When the fair value of financial assets and liabilities stated in the balance sheet cannot be obtained from active markets, it is determined by using valuation techniques, including the discounted cash flow method. Data for these methods are based on market data, when possible; however, when this is not feasible, a certain level of judgment is required to establish the fair value. Judgment includes considerations on data used, such as liquidity risk, credit risk and volatility. Changes in assumptions on these factors could affect the reported fair value of the financial instruments.

Fair value measurements and valuation processes – Some of the Company and its subsidiaries' assets and liabilities are measured at fair value for financial reporting purposes. In estimating the fair value of an asset or a liability, the Company and its subsidiaries use observable market inputs to the extent they are available. Where Level 1 inputs are not available, other valuation techniques and information appropriate to the model are used.

Assets acquired net of liabilities assumed in business combinations are recognized at their fair value at the acquisition date. Certain assumptions are adopted by the appraisers to determine such fair values. Contingent consideration in business combinations and non-derivative financial assets held for trading are particularly sensitive to changes in one or more observable inputs considered reasonably possible within the next financial year.

32. INSURANCE

The Company and its subsidiaries have insurance coverage in an amount considered sufficient by Management to cover any losses, considering the nature of their activities and the risk involved in their operations.

As at December 31, 2025, the main insurance policies taken out by the Company and its subsidiaries with third parties are as follows:

Nature of insurance / insured item	Insurance company	Effective up to (a)	Insured amount
Vessels (Hulls and machines)	Fairfax Brasil	Jun/2026	USD 429,227
Vessels (P&I Club (b))	West of England	Nov/2026	USD 8,900 million)
Civil Liability	Fairfax Brasil	Jun/2026	Up to R$ 40,000
Directors & Officers	Ezze	Apr/2026	Up to R$ 70,000
RC Offshore	Fairfax	Jul/2026	USD 15,000
ROV and Glider	Fairfax	Mar/2026	USD 38,689
Property - Offices	Avla	Mar/2027	R$ 21,545
Property - Bases	Sombrero	Oct/2026	R$ 159,000

(a) Insurance policies taken out by OceanPact are renewed annually.
(b) Fleet-related liability insurance, with loss coverage in the maximum indemnifiable amount of approximately R$49 billion (US$8.9 billion), limited to approximately R$5.5 billion (US$1 billion) for environmental damages involving pollution.

33. NON-CASH TRANSACTIONS

The transactions presented below did not involve cash in the reporting periods:

- In the year ended December 31, 2025, the Company offset the amount of R$16,986 of dividends receivable against invoices outstanding in accounts payable of UP Offshore.
- In the year ended December 31, 2025, the Company offset the amount of R$12,730 of loans payable against invoices outstanding in accounts payable of OCP Navegação.

34. EVENTS AFTER THE REPORTING PERIOD

- On February 27, 2026, as disclosed to the market on the same date, OceanPact and Grupo CBO entered into an agreement aimed at implementing a business combination of the companies through the merger of CBO Holding into OceanPact.

  CBO is a holding company that, together with its subsidiaries, operates a fleet of 45 vessels. Thus, the Business Combination represents an important opportunity to generate value for the shareholders of both Companies, resulting in the creation of the most complete vessel and service platform in Brazil.

  The Business Combination will result in the merger of CBO into OceanPact, with its extinction and the succession in all its assets, rights and obligations by OceanPact. As a result of the merger of CBO, 274,551,446 new common shares of OceanPact will be issued in favor of CBO shareholders, so that CBO shareholders will hold common shares representing 57.86% of the total share capital of OceanPact.

The Exchange Ratio for the Merger of CBO was freely negotiated between the managements of OceanPact and CBO, with the support of their respective external advisors, taking into consideration the enterprise value of both companies.

As a premise of the Business Combination, the Companies and the Signatory Shareholders agreed to segregate the contingent assets related to ongoing legal disputes concerning credit rights of the subsidiary UP Offshore (see note 22), in order to ensure that any economic benefits arising there from are obtained exclusively by those who are shareholders of OceanPact prior to the completion of the Business Combination.

Therefore, such contingent assets were not considered in the CBO Merger Replacement Ratio, and a corporate reorganization involving OceanPact and a wholly-owned subsidiary (OceanPact Participações S.A.) must be implemented, which will consist of a partial spin-off of OceanPact, with the subsequent merger of the spun-off portion, consisting of certain quotas of UP Offshore, into OceanPact Participações S.A., through the issuance of new compulsorily redeemable preferred shares to be subscribed by OceanPact's officers for the account and in the name of OceanPact's shareholders on the Closing Date of the transaction.

The compulsory and automatic redemption of all preferred shares of OceanPact Participações will take place through the payment of an upfront installment of R$ 0.01 (one cent) for each preferred share redeemed, and a future and contingent installment to be determined according to the amounts that may actually be received by UP Offshore or its successors as a result of the UP Processes. As a subsequent act to the Redemption, OceanPact Participações will be merged into OceanPact.

Following this reorganization, on the same date as the closing of the transaction, CBO Holding will be merged into OceanPact, resulting in the extinction of CBO Holding, with OceanPact succeeding it in all its assets, rights and obligations.

The terms and conditions of each of these stages are reflected in the Association Agreement and the Private Instrument of Protocol and Justification of the Transaction, entered into on this date between OceanPact and CBO, together with a new Shareholders' Agreement entered into between Flavio Andrade ("Flavio") and CBO shareholders (Vinci, Patria and BNDES), which will bind 67.5% of the Company's shares to the Agreement after the completion of the Transaction, in order to regulate, among other matters, the rules and procedures applicable to the exercise of voting rights and certain property rights of its signatories, as well as, during the first 2 (two) years from the completion of the Transaction, the joint exercise of control of the Company.

Pursuant to the terms of the agreements entered into, the Transaction is subject to the fulfillment of certain conditions precedent, including approval by CADE (Brazilian antitrust authority), the creditors, and the extraordinary general meetings of the Companies, which are scheduled to be held on March 30, 2026.

Based on the Pro Forma Consolidated Financial Statements as of September 30, 2025, the following is a preliminary estimate of the consideration to be transferred by Oceanpact to CBO:

	As at September 30, 2025
Number of OceanPact shares to be issued in consideration for the acquisition of CBO	274,551,446
Multiplied by the market value of OceanPact shares (*) (in reais)	7.67
Fair value of the estimated consideration to be transferred	**2,105,810**

(*) Represents the fair value of Oceanpact's shares as of September 30, 2025.

The amount of the consideration to be transferred is subject to changes in the market value of the shares that may occur up to the actual closing date of the transaction. Any changes in the market price of the shares may affect the amount of the consideration transferred and the result of the purchase price allocation.

Oceanpact conducted a preliminary analysis to assess the fair value of CBO's assets and liabilities included in the business combination, based on information available at the date of the pro forma financial information.

Thus, assuming the acquisition had taken place on September 30, 2025, based on the estimated fair values of the assets acquired and liabilities assumed, and the fair value of the consideration transferred, a bargain purchase of R$ 1,625 was identified, which, net of deferred taxes, would have positively impacted the Company's results by R$ 1,072, as shown below:

As at September 30, 2025	Surplus value (value loss)
Purchase price (consideration)	2,105,810
Fair value of net assets acquired of CBO	2,107,435
Bargain purchase gain	**(1,625)**
Deferred tax expense	553
Net bargain purchase gain	**(1,072)**

Given that the Transaction has not yet been completed, and that the consideration amount will be determined based on Oceanpact's share price on the acquisition date (the closing date of the Transaction), the resulting goodwill or bargain purchase gain may be significantly affected until the Transaction is finalized.
